U.S. COMMITTEE FOR REFUGEES AND IMMIGRANTS

REFUGEE HEALTH

MEDICAL SCREENING
PROGRAM OVERVIEW

OUR PURPOSE

The Refugee Medical Screening (RMS) program is administered by U.S. Committee for Refugees and Immigrants and is carried out by local health departments. RMS provides eligible clients with culturally and linguistically appropriate comprehensive health screenings and assistance. This includes follow-up and referrals for health conditions identified in the screening process. The RMS program is 100 percent federally funded through the Office of Refugee Resettlement.

CLIENTS SERVED BY RMS

The Refugee Medical Screening program provides services for the following groups:

- Refugees
- Asylees
- Cuban and Haitian Entrants
- Victims of Human Trafficking
- Special Immigrant Visa Holders
- Amerasians

CLINICS

Refugee Medical Screening works with the following local public health departments and federally-qualified health centers in principal resettlement areas to provide health assessment services to eligible clients:

- City of St. Louis Department of Health
- Affinia Healthcare in St. Louis City
- Columbia/Boone County Department of Public Health and Human Services
- Samuel U. Rodgers Health Center in Kansas City
- Jordan Valley Community Health Center in Springfield City
